### **Matthew Millard**

613-223-9371 · Ottawa, Ontario · <u>matthew.richie.millard@gmail.com</u> linkedin.com/in/matthew-richie-millard · github.com/matthew-millard

#### **Summary**

Junior web developer and creator of <u>notely.ca</u>, <u>mattmillard.photography</u>, and <u>mattmillard.com</u>. As a coorganizer of ForwardJS Ottawa, I help bring the developer community together each month through meetups and talks. Most recently, I gave a talk at Shopify to over 120 attendees on "*Making Remix Apps Feel Faster with Optimistic Ul*". I'm mad passionate about web development - always learning, pushing code daily, and building cool things.

### **Deployed Projects**

- notely.ca A full-stack note-taking application built with Remix, TypeScript, and PostgreSQL. Uses Prisma
  for database management, Conform + Zod for type-safe form validation, and Tailwind CSS with Radix UI/
  Shadcn for styling and components. Features OAuth and custom session-based authentication, email
  verification via Resend, and is deployed on Fly.io.
- mattmillard.photography My personal photography portfolio built with React + Remix (TypeScript) and Tailwind CSS. Deployed on Cloudflare Pages with a Cloudflare D1 database, Cloudflare Images for asset delivery, and Cloudflare Email Routing + Mailjet for contact forms. Includes Turnstile + honeypots for spam protection and Zod + Conform for form validation.

### **Education**

**University of Toronto** – Online *Full Stack Coding Boot Camp* | Feb 2023 - Sept 2023

**SAE Institute** – Byron Bay, NSW, Australia *Bachelor's Degree in Audio Engineering* | Oct 2008 - Jun 2011

# Open Source, Talks & Community Contributions

**ForwardJS Ottawa Co-Organizer & Photographer** - Help organize Ottawa's monthly meetups by coordinating speakers, sponsors, and event logistics. As a semi-professional photographer, I also capture photos at each event to help promote the local developer community across social media channels.

<u>ForwardJS.com</u> - Contributing to the ongoing development of our community site by adding new features such as the current member count and keeping sponsor listings up to date.

**ForwardJS August 2025 Meetup** - Gave a talk to over 120 industry peers on "Making Remix Apps Feel Faster with Optimistic UI." The presentation was well-received and has inspired me to continue giving more talks in the future.

# **Continuous Learning**

- Epic Web (Full Stack, Testing)
   Testing JavaScript
   TypeScript Pro Essentials
   Epic React Pro
- Complete CSS (Andy Bell)
